

## Morphicon Conduct Policy

- **Morphicon cannot permit violation of local, state, or national law.** We will take severe and immediate action against anyone who brings illegal drugs to the convention, engages in vandalism, or blatantly violates law in a manner that would seriously compromise our relationship with the hotel or with the community. Alcohol and weapons are not allowed in public convention space.
- **Morphicon does not allow mature subject matter to be displayed in areas where either minors, or adults who do not wish to see it, may be exposed to it.** This includes explicit artwork, but also includes overtly mature discussions and inappropriate sexual behaviors (public groping, obscene behavior, or nudity).
- **Morphicon is the mediator between attendees and the hotel (and/or the community).** If you have a problem with something involving convention operations, convention staff, or another attendee of the convention, you **must** address it to Morphicon staff (preferably to security); **not** to the hotel, and **not** to other local authorities. We will involve the hotel or other authorities if it becomes necessary.
- **Morphicon reserves the right to revoke a member's registration if they break this policy.** During the convention, your convention badge is Morphicon's property. If a staff member asks to see it, please hand it to them.
- **Bids in the silent charity auction are a promise to pay. If you win, you bought it.**
